

MANISH YADAV

B.Tech Information Technology (3rd Year) | Aspiring Data Scientist

+91-8707011362 | yadavmanishmky2004@gmail.com | Bhayandar East, Mumbai – 401105

[LinkedIn](#) | [GitHub](#) | [AI Chatbot – Live Demo](#)

CAREER OBJECTIVE

Motivated B.Tech IT student with a strong interest in Data Science and Machine Learning. Currently building a solid foundation in Python, data analysis, and AI integration through hands-on projects and internships. Built and deployed a live AI chatbot independently in 10 days. Seeking an internship opportunity to apply and expand my technical skills in a professional environment while working towards a career as a Data Scientist.

EDUCATION

B.Tech – Information Technology | REC Ambedkar Nagar, AKTU 2026 – Present

Currently in 2nd Year (Sem 4 – Result Awaited) | SGPA (Sem 3): 7.8 | AKTU University, Uttar Pradesh

12th – Science Stream | Babbu Ram Inter College, Handiya, Prayagraj 2023 – 2024

UP Board | Percentage: 72.8%

10th | Nagrik Inter College, Janghai, Jaunpur 2021 – 2022

UP Board | Percentage: 76.8%

TECHNICAL SKILLS

Languages Python (Intermediate), C (Intermediate), JavaScript (Basic)

Web & Backend HTML5, CSS3, Python Flask, REST APIs

Database MongoDB

DSA Data Structures & Algorithms using C

Data Science Data Science Fundamentals, Predictive Analytics (Learning)

AI / ML LLM API Integration, Prompt Engineering with ChatGPT

Tools Git, GitHub, VS Code, Render, Vercel

INTERNSHIP EXPERIENCE

Python Developer Intern | CodSoft (Remote) 01 Aug 2025 – 31 Aug 2025

- Completed real-world Python assignments covering OOP, file handling, functions, and logic building.
- Built and submitted mini-projects as structured assignments; delivered all tasks on time.
- Strengthened Python programming fundamentals in a professional remote-work setting.
- Awarded internship completion certificate by CodSoft upon successful completion.

PROJECTS

AI Chatbot – Full Stack Web Application

[Live Demo ↗](#)

Python | Flask | MongoDB | HTML5 | CSS3 | JavaScript | Render Cloud | VS Code | Solo Project, 2026

project mentored by **Dr. Shivendu Mishra**, Assistant Professor of Rajkiya Engineering College Ambedkar Nagar.

- Independently designed, developed, and deployed a fully functional AI chatbot from scratch in just 10 days.

- Engineered a RESTful backend with Python Flask; integrated MongoDB for persistent conversation history and user session management.
- Built a responsive, dynamic frontend in HTML/CSS/JavaScript enabling real-time chat interaction.
- Integrated a Large Language Model (LLM) API to deliver intelligent, context-aware responses.
- Deployed live on Render cloud platform — accessible globally;
-

HealthLink – AI Healthcare Startup | Deployment Engineer 2026

Team: Anoop Mishra (Lead & Dev), Manish Yadav (Deployment), Ankita Yadav (AI/ML)

Mentored by **Dr. Sudhakar Tripathi**, Head of the Information Technology Department at Rajkiya Engineering College Ambedkar Nagar, providing guidance and mentorship for startup and technology-driven projects.

- Co-founded an AI-first telemedicine platform targeting rural and semi-urban communities with limited healthcare access.
- Solely responsible for cloud deployment, infrastructure setup, and scalable hosting of the complete platform.
- Platform features included: 24/7 AI chatbot for medical guidance, AI-based record summarization, and predictive disease detection.
- Presented at the AI Innovation Summit organized by Dr. A.P.J. Abdul Kalam Technical University (AKTU).

Vulnerable Web App – Cybersecurity Workshop | Sem 3 Academic Project 2026

HTML | CSS | JavaScript | Vercel | VS Code | Mentored by Dr. Shivendu Mishra, Assistant Professor REC Ambedkar Nagar

- Developed a deliberately vulnerable web application to demonstrate and study common cybersecurity attack vectors.
- Implemented examples of weak authentication, Cross-Site Scripting (XSS), and SQL Injection entry points.
- Deployed on Vercel for live demonstration; used as an educational tool within the academic curriculum.

HACKATHONS & COMPETITIONS

Smart India Hackathon (SIH) – Problem Statement #118 | Team Leader 2025

Theme: Telemedicine & Digital Healthcare

- Led a team of 6 members to conceptualize and develop a doctor-patient digital connection application.
- Qualified at college level; oversaw project planning, sprint management, team coordination, and documentation.
- Gained practical experience in agile development, rapid prototyping, and delivering under competitive deadline pressure.

CERTIFICATIONS

Python Development Internship Certificate | CodSoft Aug 2025

Awarded upon successful completion of a 1-month remote Python development internship.

ACHIEVEMENTS & EXTRA-CURRICULAR

- YouTube Gaming Channel (IndianGammer-01): Organically grew channel to 1,00,000+ subscribers; independently manages the complete content pipeline including recording, editing, and publishing.
- Vlog Channel (@raoshab362): Built an audience of 2,800+ subscribers documenting tech exploration and travel.
- AI Innovation Summit Speaker: Presented HealthLink telemedicine startup at AKTU's AI Innovation Summit (2026).

DECLARATION

I hereby declare that all the information furnished above is true, accurate, and correct to the best of my knowledge and belief.
